

SIMPLIFYING SAFETY & COMPLIANCE FOR EXPANDING BUILDING MATERIALS COMPANIES

OVERVIEW

Building materials manufacturers and distributors operate in fast-paced production and yard environments where safety, training, and compliance must keep up with daily operations. For growing organizations, paper forms, spreadsheets, and disconnected systems make it difficult to stay compliant and protect workers.

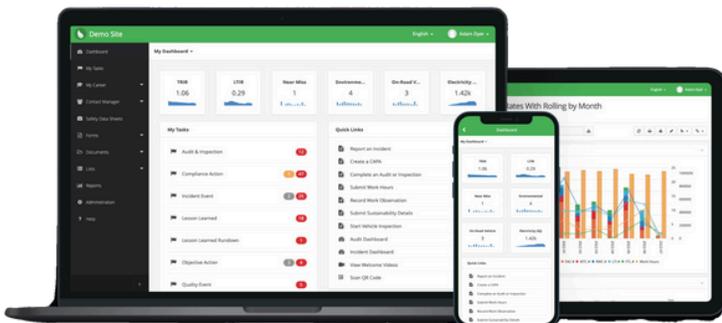

EHS Insight helps small and mid-size building materials companies replace manual processes with a simple, mobile safety platform that scales as the business grows.

BUSINESS IMPACT

- **Faster incident reporting** and investigations
- **Fewer missed training renewals** and expired certifications
- **Reduced administrative workload** for safety teams
- **Stronger audit readiness** with less effort

WHY BUILDING MATERIALS TEAMS CHOOSE EHS INSIGHT

- Easy to implement and use
- Mobile-first for plant and yard teams
- Scales as operations grow
- Eliminates spreadsheets and paper workflows

CHALLENGES

- **Paper incident reports and inspections slow response times**
- **Limited resources to manage training and certifications**
- **Difficulty tracking SDSs and chemical hazards across sites**
- **Risk of missed compliance deadlines and incomplete records**

THE EHS INSIGHT SOLUTION

Incident Management

- Capture incidents and near misses from the plant floor or yard in minutes
- Standardize investigations and corrective actions
- Generate OSHA-ready logs automatically

Audit & Inspection Management

- Run site, equipment, and forklift inspections with mobile checklists
- Capture photos and findings without paper or re-entry
- Track corrective actions to closure

Training Management

- Assign required safety training by role and location
- Track completions and expirations automatically
- Keep certifications audit-ready at all times

Compliance Tasks & Corrective Actions

- Track permits, inspections, and safety actions in one place
- Automate deadlines and reminders
- Maintain defensible records with minimal admin effort
